you customize your own support

Just because STAKS SUBS™ is not a franchise does not mean we cannot give you access to professional support. The difference is you pick and choose what you need for your business.

SUPPORT

the support we offer includes:
Quality Assurance Associates
Equipment Specification Guide
Standard Operating Procedures

At STAKS SUBS™ the support doesn't just stop here. STAKS SUBS™ has a Continuing Support Program, which we developed. This program consists of regular visits to your facility to give as much, or as little guidance as you may want. The program also includes continuing training at no cost to you*. It is an "ever growing" network of local support for the STAKS SUBS™ concept.

BECOME A
FRANCHISEE
www.stakssubs.com

Note: This is not a franchise, all the supporting materials we supply are just suggestions, but the ultimate decision on how your business should be operated lie solely with you and your advisors.

*Our support network is growing, but may not be available in your area.

The Story of STAKS SUBS™

In 2008, the US Army wanted to create a Branded Deli Concept within their Dining Facilities. A Deli concept that would make the soldiers feel like they were back home eating at a National Deli Brand! However, Dining Facilities operating on government funds cannot buy franchises or contract with National Brand Chains.

Reveille Foods, LLC was approached by the Army Food Service Advisor to create that Deli concept. This concept needed to give speed of service with minimal training, minimal oversight, minimal to no waste and a branded point of sale package to make the facility look like a National Deli Chain. Reveille Foods was able to deliver that concept.

Every aspect of the operation was reviewed and re-engineered. Reveille Foods knew, the more thought put into the concept from the beginning would mean less thought an operator needed to put into it. It took a few years to completely develop the program, but in 2012, Reveille Foods opened its first STAKS SUBS™ location on a military base. By the end of 2014 there are close to 100 STAKS SUBS™ locations.

Starting now, you can get to benefit from this program that was created for the military. Since this concept was specifically created not to be a franchise, with all the hidden fees and incredible oversight, you can now become part of the same program as our government.

With the price wars in the food industry (like \$5.00 Foot Longs) happening at a time where food prices are at historical highs, Can you really afford to pay up front Franchise Fees and Royalties of 7% to 15% of your sales? Can you deal with having someone come in to oversee your operation telling you how to service your customers?

With STAKS SUBS™ you will have a complete concept and a franchise look, with one very important exception; NO franchise fees, NO royalties and NO oversight. We provide you with as much or as little as you believe you need to run your business. At the end of the day, it's your business, you run it as you see fit!
